Valentine’s Day

February 14th is Valentine’s Day. Valentine’s Day is a day for romance and love. Roses and chocolates are romantic symbols of Valentine’s Day. Another symbol of romance is Cupid, son of Venus, the goddess of love. Cupid was often shown as a smaller, more playful version of his mother. His golden arrows were magical and even slight contact with one of the arrow tips could make a person fall in love.

On Valentine’s Day, people give presents and cards to each other. The cards are called valentines. People don’t just give cards, they give candles, balloons, candies and chocolates that are in the shape of a heart.

Valentine’s Day is a day for love and romance and many people like to use the day to celebrate any kind of love - including love of friends and family.

It is also a day for fun!

Roses are red
Violets are blue,
Sugar is sweet
And so are you!
